PURPOSE AND PRINCIPLES

1. Freestyle Canada is committed to working with its P/TSO's and Clubs to provide value in the form of benefits and services and to maintain an accurate membership National Database. The purpose of this Policy is to describe the rights, conditions, and obligations of being a sanctioned Club within Freestyle Canada and to obtain a sanction from Freestyle Canada for conducting activities.
2. Freestyle Canada is an organization whose primary purpose is the development, organization and management of the sport of freestyle skiing in Canada. Freestyle Canada fulfills its purpose by actively engaging its P/TSO's and Clubs. Freestyle Canada is generally responsible for developing programs and services that impact all P/TSO's and Clubs across Canada and operating the High-Performance Program for elite athletes eligible for international competitions as members of Team Canada. P/TSO's are generally responsible for implementing programs and services for athletes within a specific provincial boundary, and the Club is generally responsible for implementing programs and services for athletes at a local or regional level within a territorial/provincial boundary.
3. Freestyle Canada believes that the growth and management of organized freestyle skiing are the joint responsibility of FC, its P/TSO's and Clubs. Membership management and growth require investment in benefits and services and the ability to tailor these changes to the membership market.
4. Freestyle Canada recognizes the services an individual receives are the result of the combined action of Freestyle Canada, its P/TSO's, and the Clubs, and believes that by working cooperatively to develop and deliver membership value, Freestyle Canada, its P/TSO's, Clubs and all participants in the sport will benefit.
